

Dutch Dialogues

May 19, 2015

The Dutch Dialogues

- Origins
 - Conceived from conversations between New Orleans and Dutch engineering and water management professionals
- First Dialogue
 - Initiated by Dale Morris, Royal Netherlands Embassy in Washington DC and David Waggoner, a local New Orleans architect
- Outcome
 - Basis for the award-winning New Orleans Urban Water Plan

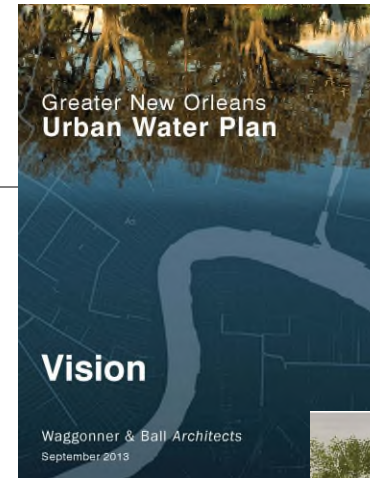

Dutch Approach

➤ Process

- Multi-disciplinary
- Multi-stakeholder
- Collaborative

➤ Goal

- Innovative design and engineering to deliver water management, environmental goals, community amenities and economic development

Hampton Roads Dutch Dialogue

- 5-Day Workshop
 - June 19-June 23, 2015—Slover Library
- Participants: Dutch, U.S., Local
 - Urban designers, engineers, landscape architects, planners, academics and government officials
- Goal
 - Explore creative solutions for flood risk reduction that improve livability, amenities and economic vitality
